Tom, at 8:45 a.m., once again as always, Mr. Calvagno raced his Dodge Hellcat at a high rate of speed north on Grand Central Avenue.

I am very concerned that he will injure or kill our pedestrians/neighbors that use the street to jog, bicycle and walk with their babies in strollers. Because there are no sidewalks on this street, the street must be used for pedestrians. Must a tragedy occur in order to put a stop to this reckless behavior?

Tom, once again I woke up early a.m. to a deafening noise as Mr. Calvagno started up his vehicle and proceeded to race south on Grand Central Ave.

Once again, let me be clear that this presents a danger to all pedestrians either walking or jogging and to other vehicles on the road obeying our speed limits.

What tragedy must occur to stop this insanity???

Tom, did you hear our neighbor AGAIN and AGAIN, early this morning rev up his engine and race down the street??

I am fearful that someone will get hurt soon walking or jogging down our street not to mention the loudness that wakes us up in the morning.

This is an ongoing problem for our neighborhood and a real concern for everyone.

Please be advised that once again this morning I was awakened at 7:03 a.m. by my neighbor across the street revving the engine of his Dodge Hellcat. After 5-7 minutes of ear shattering revving, he finally took off at lightning speed racing down the street until he reached the first stop sign. This every morning event MUST BE STOPPED since it grossly affects our quality of life as well as being AGAINST THE LAW.

Sincerely,
Pat Schneider

Hi Jim ;

I am curious if you were awoken by the above car starting up and idling this morning, I should have tape recorded it, but I did not expect what he did. Thanks.

Tom, this morning I was rudely awakened at about 7:00 by our neighbor at 320 grand central ave speeding up the street with his **dodge hellcat with its** deafening exhaust noise. I was wondering if you heard it as well? The sound was even louder then the garbage truck.

Dear Tom,

Last Sunday 6/26 at 7:58 a.m., Jim and I were jolted awake by a deafening roar outside. It was so startling that when Jim jumped out of bed he hurt his back.

When will somebody do something about Calvagno's vehicle and his total lack of regard for his neighbors and their quality of life?
